

## OUR LADY OF THE VALLEY

# Rehab Success Story:

## *Delores Hodge*

### REHAB PROFILE

#### *Reason for rehab:*

Fall in her home resulting in a fracture of the femur.

#### *Goals for recovery:*

Resume daily activities and return home in time to celebrate her husband's birthday.

#### *Therapy required:*

Physical and Occupational

#### *Timeline:*

Therapy 6 days per week.

Start of care—July 4, 2021

End of care—July 16, 2021

After falling down at home, Delores Hodge soon learned that she had fractured her femur, requiring surgical repair followed by in-patient rehabilitation.

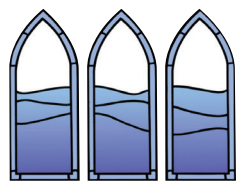

Her husband, Forrest, was already very familiar with the compassionate care available at Our Lady of the Valley, so it was his first call. The admissions team worked quickly over the Fourth of July weekend to ensure that Delores' therapy started immediately.

Although eager to return home, Delores enjoyed her time in the community, stating "The food is great! Therapy has been extremely helpful. I'm very satisfied with my stay and so grateful for everyone who has worked with me."

Delores was especially happy to be discharged on July 16—one day before Forrest's birthday!

*Mrs. Hodge was all smiles as she prepared to head home following therapy.*
