

# OUR LADY OF THE VALLEY

## Rehab Success Story:

### *Joseph Woolwine*

#### REHAB PROFILE

*Reason for rehab:*

Hospital stay resulting in severe sepsis.

*Goals for recovery:*

Return back home to care for and enjoy time with his wife.

*Therapy required:*

Physical, Occupational, and Speech

*Timeline:*

Start of care—February 2, 2022

End of care—March 3, 2022

When Mr. Joseph Woolwine found himself requiring rehabilitation after a recent hospital stay, he quickly let his care team know that he would be recovering at Our Lady of the Valley. It was an easy decision as he remembered his wife Donna's previous rehab success in our community.

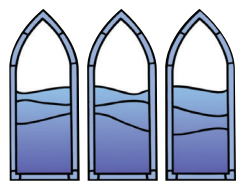

Illness had affected Joseph both physically and mentally. But dedicated therapists and an internal determination to meet his goals helped his progress. He quickly learned proper use of a cane to support his mobility and new games to improve his memory—he even beat our therapists in Rummy while working on his standing tolerance!

Joseph says that he is leaving "a better man" and is proud to be a Valley Rehab Graduate!

*"I've made so many friends and everyone has been so nice and professional. I've had the most wonderful experience!"*

*-Joseph Woolwine*
